# CHIME DIGITAL HEALTH MOST WIRED

From 1997 to 2017 the program was owned and operated by the American Hospital Association; the survey has been active for 24 years.

In late 2017, CHIME acquired the program. The entire Most Wired program was reengineered to survey, evaluate, benchmark and recognize the standards necessary to achieve high performance through digital health excellence.

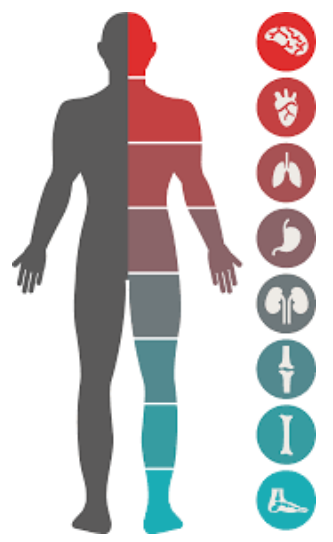

## **Mission:**

To elevate the health and care of communities around the world by encouraging the optimal use of digital health including advanced health information technology.

## **How do we do this?**

Conduct an annual digital health survey to identify, recognize, and certify the adoption, implementation, and use of digital health technologies and programs by health provider organizations around the world.
